Dear Dr. Benjamin:-

Did you, while in the Museum, leave a pair of gray suede gloves? If so, I will send them on to you.

I am also taking the liberty of reminding you that you were going to let me know about the three sizes of Bryant medals that you have.

I trust that you will pay us a visit whenever you can find time when in New York, and in the meantime please remember me most sincerely to Mr. Belote.

Very truly yours,

Curator.

Dear Mr. Wood:

Enclosed please find the
rubbing you wanted of the three
specimens of Bryan money that I
have. They are not particularly
good but the smallest one was
the only one you thought you would
be interested in and that is fairly
satisfactory.

Very truly yours

John W. Lutz

Bear Dr. Benjamin:-

I received your letter and have compared our Bryan pieces with your rubbings, and find that we have all of them. I wish to thank you for sending these on.

I have just written to Mr. Noble concerning those two Society of the War of 1812 badges, but it is hardly time yet for us to have heard from him.

Very truly yours,

Curator.
